FEB 26 1982

Ricardo Duenas, Administrator  
Guam Environmental Protection Agency  
P.O. Box 2999  
Agana, Guam 96910

Dear Mr. Duenas:

I am writing to bring you up to date on current activities under Superfund. As you are aware, on January 4, 1982, we submitted to EPA Headquarters our Regional recommendations for action on sites on the Interim Priority List. As the State designated highest priority site, Ordot Landfill appeared on the list and was included in our funding request, which is presently being reviewed by EPA Headquarters.

We have recently received guidance from EPA Headquarters concerning the next stage of the Superfund process. This guidance concerns updating the Interim Priority List in order to project the resources needed to develop the National Priority List, which will be released later in the year. We plan to continue to submit Ordot Landfill as Guam's highest priority site until remedial action is taken on the site.

Please contact me at (415)974-8042 or Norm Lovelace at (415)974-8089 if you have any questions.

Sincerely yours,

Original Signed by:

David S. Mowday  
Acting Director  
Toxics & Waste Management Division
